Michel Colaci, owner and founder of immunizeNet – safer digital lives, held a parent workshop on the 4th of March 2015 at 7pm in Colaiste Choilm. As a parent and IT specialist, Michels shared his knowledge, expertise and first-hand experience in the areas of online, app and social media safety with parents. He explained the latest and future trends in apps our children use, showing the audience how to access and implement parental controls, app restrictions, content filters, and much more...the workshop was aimed at all levels of knowledge - whether a complete technology novice or a digital native.
